INTRODUCTION

Apprenticeships are a great way for schools to improve the skills base of their employees. They are a tried and tested way to recruit new staff, and to retrain or upskill existing staff of all ages and levels of experience, in a wide variety of roles.

You can use apprenticeships to provide training that is tailored to the needs and requirements of your school, with learning in the workplace as well as through formal training, to minimise disruption and maximise impact.

Schools should consider apprenticeships as part of **strategic workforce planning**, promoting a **diverse and inclusive workforce** and supporting **recruitment and retention** more widely.
